Dear Sir/Madam,
In accordance with Title 27:7-35 et seq., and Regulation of the New Jersey Department of Transportation, you are hereby notified that your firm has been CLASSIFIED by the New Jersey Department of Transportation. Please see ATTACHMENT A for your firm's assigned financial capability, work classification(s), and project rating(s).

Your firm's financial capability is based on (net working capital or (Net Worth x 15) + (net book value of construction equipment, less the value of any outstanding loans x 15) + (unsecured lines of credit in accordance with the Questionaire x 7) as determined by the Department from the information your firm submitted for the Close of Business on 9/30/2024 Please see ATTACHMENT B for explanation.

Your firm's financial capability is defined as the dollar threshold on the maximum of a project rating, which is assigned by the Department pursuant to N.J.A.C. 16:44-3.6 upon examination of the contractor's Questionaire and financial statement submitted in accordance with this chapter. Project Rating is defined as the maximum dollar amount that a Contractor shall be allowed to bid in a particular work type on and individual project.

This CLASSIFICATION will be effective on 3/6/2025 and will expire on 3/31/2026

Bid will only be accepted from a contractor classified with the Department pursuant to N.J.A.C. 16:44-3. Bids will only be accepted from a contractor who has been classified in at least one of the work classifications required in the project advertisement. Bids will be accepted from a contractor in an amount that does not exceed its project rating. When there is a question as to whether a bid is within the contractor's classification or, where it reasonably appears that a contractor may not have the classification that will allow it to bid on a project for which bids are being sought, the bid will be opened provisionally. If the bid is for a different work classification or in a dollar amount greater than the contractor's maximum project rating, the bid will be rejected.

NOTICE OF CLASSIFICATION
EARLE ASPHALT COMPANY

Please be advised that the supplementary provisions (Project specific Specifications) for all present and future Bridge Painting contracts required all contractors and sub-contractors to have valid Certificates SSPC-QP1 and SSPC-QP2 issued by The Society for Protective Coatings (http://www.sspc.org/) at the time of bid and duration of the contract.

In order to be continuously eligible to bid on projects to be undertaken by this Department, your firm's next Contractor's Financial and Equipment Statement should be submitted one month before the expiration date, but must be received at least 15 days prior to the date set for receipt of bids for which the classification will be used.

Sincerely,

Mario Serenelli

CONSTRUCTION CONTRACTS

During the performance of this contract, the Contractor agrees as follows:

The Contractor or subcontractor, where applicable, will not discriminate against any employee or applicant for employment because of age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability, nationality or sex. Except with respect to affectional or sexual orientation and gender identity or expression, the Contractor will ensure that equal employment opportunity is afforded to such applicants in recruitment and employment, and that employees are treated during employment, without regard to their age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability, nationality or sex. Such equal employment opportunity shall include, but not be limited to the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the Public Agency Compliance Officer setting forth provisions of this nondiscrimination clause.

The Contractor or subcontractor, where applicable will, in all solicitations or advertisements for employees placed by or on behalf of the Contractor, state that all qualified applicants will receive consideration for employment without regard to age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability, nationality or sex.

The Contractor or subcontractor will send to each labor union, with which it has a collective bargaining agreement, a notice, to be provided by the agency contracting officer, advising the labor union or workers' representative of the Contractor's commitments under this act and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

The Contractor or subcontractor, where applicable, agrees to comply with any regulations promulgated by the Treasurer, pursuant to N.J.S.A. 10:5-31 et seq., as amended and supplemented from time to time and the Americans with Disabilities Act.

When hiring or scheduling workers in each construction trade, the Contractor or subcontractor agrees to make good faith efforts to employ minority and women workers in each construction trade consistent with the targeted employment goal prescribed by N.J.A.C. 17:27-7.2; provided, however, that the Department of Labor & Workforce Development (Dept. of LWD), Construction EEO Monitoring Program, may, in its discretion, exempt a Contractor or subcontractor from compliance with the good faith procedures prescribed by the following provisions, A, B, and C, as long as the Dept. of LWD, Construction EEO Monitoring Program is satisfied that the Contractor or subcontractor is employing workers provided by a union which provides evidence, in accordance with standards prescribed by the Dept. of LWD, Construction EEO Monitoring Program, that its percentage of active "card carrying" members who are minority and women workers is equal to or greater than the targeted employment goal established in accordance with N.J.A.C. 17:27-7.2. The Contractor or subcontractor agrees that a good faith effort shall include compliance with the following procedures:

(A) If the Contractor or subcontractor has a referral agreement or arrangement with a union for a construction trade, the Contractor or subcontractor shall, within three business days of the contract award, seek assurances from the union that it will cooperate with the Contractor or subcontractor as it fulfills its affirmative action obligations under this contract and in accordance with the rules promulgated by the Treasurer pursuant to N.J.S.A. 10:5-31 et. seq., as supplemented and amended from time to time and the Americans with Disabilities Act. If the Contractor or subcontractor is unable to obtain said assurances from the construction trade union at least five business days prior to the commencement of construction work, the Contractor or subcontractor agrees to afford equal employment opportunities minority and women workers directly, consistent with this chapter. If the Contractor's or subcontractor's prior experience with a construction trade union, regardless of whether the union has provided said assurances, indicates a significant possibility that the trade union will not refer sufficient minority and women workers consistent with affording equal employment opportunities as

specified in this chapter, the Contractor or subcontractor agrees to be prepared to provide such opportunities to minority and women workers directly, consistent with this chapter, by complying with the hiring or scheduling procedures prescribed under (B) below; and the Contractor or subcontractor further agrees to take said action immediately if it determines that the union is not referring minority and women workers consistent with the equal employment opportunity goals set forth in this chapter.

(B) If good faith efforts to meet targeted employment goals have not or cannot be met for each construction trade by adhering to the procedures of (A) above, or if the Contractor does not have a referral agreement or arrangement with a union for a construction trade, the Contractor or subcontractor agrees to take the following actions:

(l) To notify the public agency compliance officer, the Dept. of LWD, Construction EEO Monitoring Program, and minority and women referral organizations listed by the Division pursuant to N.J.A.C. 17:27-5.3, of its workforce needs, and request referral of minority and women workers;

(2) To notify any minority and women workers who have been listed with it as awaiting available vacancies;

(3) Prior to commencement of work, to request that the local construction trade union refer minority and women workers to fill job openings, provided the Contractor or subcontractor has a referral agreement or arrangement with a union for the construction trade;

(4) To leave standing requests for additional referral to minority and women workers with the local construction trade union, provided the Contractor or subcontractor has a referral agreement or arrangement with a union for the construction trade, the State Training and Employment Service and other approved referral sources in the area;
(5) If it is necessary to lay off some of the workers in a given trade on the construction site, layoffs shall be conducted in compliance with the equal employment opportunity and nondiscrimination standards set forth in this regulation, as well as with applicable Federal and State court decisions;

(6) To adhere to the following procedure when minority and women workers apply or are referred to the Contractor or subcontractor:

(i) The Contactor or subcontractor shall interview the referred minority or women worker.

(ii) If said individuals have never previously received any document or certification signifying a level of qualification lower than that required in order to perform the work of the construction trade, the Contractor or subcontractor shall in good faith determine the qualifications of such individuals. The Contractor or subcontractor shall hire or schedule those individuals who satisfy appropriate qualification standards in conformity with the equal employment opportunity and non-discrimination principles set forth in this chapter. However, a Contractor or subcontractor shall determine that the individual at least possesses the requisite skills, and experience recognized by a union, apprentice program or a referral agency, provided the referral agency is acceptable to the Dept. of LWD, Construction EEO Monitoring Program. If necessary, the Contractor or subcontractor shall hire or schedule minority and women workers who qualify as trainees pursuant to these rules. All of the requirements, however, are limited by the provisions of (C) below.

(iii) The name of any interested women or minority individual shall be maintained on a waiting list and shall be considered for employment as described in (i) above, whenever vacancies occur. At the request of the Dept. of LWD, Construction EEO Monitoring Program, the Contractor or subcontractor shall provide evidence of its good faith efforts to employ women and minorities from the list to fill vacancies.

(iv) If, for any reason, said Contractor or subcontractor determines that a minority individual or a woman is not qualified or if the individual qualifies as an advanced trainee or apprentice, the contractor or subcontractor shall inform the individual in writing of the reasons for the determination, maintain a copy of the determination in its files, and send a copy to the public agency compliance officer and to the Dept. of LWD, Construction EEO Monitoring Program.

(7) The Contractor or subcontractor agrees to keep a complete and accurate record of all requests made for the referral of workers in any trade covered by the contract, on forms made available by the Dept. of LWD, Construction EEO Monitoring Program and submitted promptly to the Dept. of LWD, Construction EEO Monitoring Program upon request.

(C) The Contractor or subcontractor agrees that nothing contained in (B) above shall preclude the Contractor or subcontractor from complying with the union hiring hall or apprenticeship policies in any applicable collective bargaining agreement or union hiring hall arrangement, and, where required by custom or agreement, it shall send journeymen and trainees to the union for referral, or to the apprenticeship program for admission, pursuant to such agreement or arrangement. However, where the practices of a union or apprenticeship program will result in the exclusion of minorities and women or the failure to refer minorities and women consistent with the targeted county employment goal, the Contractor or subcontractor shall consider for employment persons referred pursuant to (B) above without regard to such agreement or arrangement; provided further, however, that the Contractor or subcontractor shall not be required to employ women and minority advanced trainees and trainees in numbers which result in the employment of advanced trainees and trainees as a percentage of the total workforce for the construction trade, which percentage significantly exceeds the apprentice to journey worker ratio specified in the applicable collective bargaining agreement, or in the absence of a collective bargaining agreement, exceeds the ratio established by practice in the area for said construction trade. Also, the Contractor or subcontractor agrees that, in implementing the procedures of (B) above, it shall, where applicable, employ minority and women workers residing within the geographical jurisdiction of the union.

After notification of award, but prior to signing a construction contract, the Contractor shall submit to the public agency compliance officer and the Dept. of LWD, Construction EEO Monitoring Program an initial project workforce report (Form AA-201) electronically provided to the public agency by the Dept. of LWD, Construction EEO Monitoring Program, through its website, for distribution to and completion by the Contractor, in accordance with N.J.A.C. 17:27-7. The Contractor also agrees to submit a copy of the Monthly Project Workforce Report once a month thereafter for the duration of this contract to the Dept. of LWD, Construction EEO Monitoring Program, and to the public agency compliance officer.

The Contractor agrees to cooperate with the public agency in the payment of budgeted funds, as is necessary, for on-the-job and/or off-the-job programs for outreach and training of minorities and women.

(D) The Contractor and its subcontractors shall furnish such reports or other documents to the Dept. of LWD, Construction EEO Monitoring Program as may be requested by the Dept. of LWD, Construction EEO Monitoring Program from time to time in order to carry out the purposes of these regulations, and public agencies shall furnish such information as may be requested by the Dept. of LWD, Construction EEO Monitoring Program for conducting a compliance investigation pursuant to N.J.A.C. 17:27-1.1 et seq.

Signed this, 16th day of December, 2025.

The condition of the above obligation is such that whereas the Principal has submitted to the Township of West Windsor a certain Bid, attached hereto and hereby made a part of hereof, to enter into a contract in writing for the

SUBCONTRACTOR DECLARATION and LIST OF SUBCONTRACTORS

IF THE PROJECT'S SCOPE OF WORK INVOLVES SPECIALTY TRADE CATEGORIES, PLEASE LIST SUBCONTRACTOR INFORMATION AND/OR SUB-SUBCONTRACTOR INFORMATION BELOW.

There shall be submitted proof that each subcontractor is qualified in accordance with the rules and regulations of the State of New Jersey when such rules and regulations exist.

Each Bidder shall set forth in the Bid, the names, addresses and license numbers (when required) of each subcontractor for the furnishing of plumbing and gas fitting, and all kindred work, and of the steam and hot water heating and ventilating apparatus, steam power plants and kindred work, and electrical work, structural steel and ornamental iron work, if any, for the construction, alteration or repair of any public buildings.

A General Contractor that intended to utilize a specific subcontractor to perform work in one or more of the specialty trade categories shall provide the required information with regard to that subcontractor in the appropriate space for each specialty trade category applicable to the contract.

All Bidders seeking to perform plumbing work on a publicly bid contract are required to comply with N.J.S.A. 45:14C-2 and N.J.A.C. 13:23-1.3. These provisions require that plumbing work on such contract may only be performed by an entity in which a licensed master plumber owns not less than 10% of the issued and outstanding shares of stock in the corporation, or not less than 10% of the capital of the partnership, or not less than 10% of the ownership of any other legal firm or legal entity. Accordingly, if a Bidder intends to perform plumbing work on a publicly bid contract with its own employees or by the Bidder himself, a master plumber must possess an ownership interest that complies with N.J.S.A. 45:14C-2 and N.J.A.C. 13:23-1.3 in the entity submitting the bid. Alternately, if a Bidder intends to perform such work through a subcontractor, a master plumber must possess an ownership interest that complies with N.J.S.A. 45:14C-2 and N.J.A.C. 13:23-1.3.

If the project's scope of work involves specialty trade categories, the General Contractor that intends to perform work in one or more of the specialty trade categories through the use of its own employees or the General Contractor himself rather than through the utilization of a subcontractor shall write the words "**IN-HOUSE**" next to each applicable category and then insert the name, and the license number where required, of each such employee of the General Contractor or the General Contractor himself in the appropriate spaces for each specialty trade category applicable to the contract.

If the contract does not involve any of the specialty trade categories, please write the word "**NONE**" in the appropriate space provided.

During the performance of this contract, the successful Bidder/Contractor agrees as follows:

a. The Contractor or Subcontractor, where applicable, will not discriminate against any employee or applicant for employment because of age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation or sex. The Contractor will take affirmative action to ensure that such applicants are recruited and employed, and that employees are treated during employment, without regard to their age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation or sex. Such action shall include but not be limited to the following: employment; upgrading; demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The Contractor agrees to post in conspicuous places, available to employees and applicants for

employment, notices to be provided by the Public Agency Compliance Officer setting forth provisions of this non-discrimination clause.

b. The Contractor or Subcontractor, where applicable, will in all solicitations or advertisements for employees placed by or on behalf of the Contractor, state that all qualified applicants will receive consideration for employment without regard to age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation or sex.

c. The Contractor or Subcontractor, where applicable, will send to each labor union or representative of workers with which it has a collective bargaining agreement or other contract or understanding, a notice, to be provided by the Public Agency Compliance Officer, advising the labor union or workers' representative of the Contractor's commitments under this act and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

d. The Contractor or Subcontractor, where applicable, agrees to comply with any regulations promulgated by the Treasurer pursuant to N.J.S.A. 10:5-31 et seq., as amended and supplemented from time to time, and the Americans with Disabilities Act.

e. When hiring or scheduling workers in each construction trade, the Contractor or Subcontractor agrees to make good faith efforts to employ minority and women workers in each construction trade consistent with the applicable employment goal prescribed by N.J.A.C 17:27-7.3; provided, however, that the Division may, in its discretion, exempt a Contractor or Subcontractor from compliance with the good faith procedures prescribed by the following provisions, A, B, and C as long as the Division is satisfied that the Contractor or Subcontractor is employing workers provided by a union which provides evidence, in accordance with standards prescribed by the Division, that its percentage of active "card carrying" members who are minority and women workers is equal to or greater than the applicable employment goal prescribed in accordance with N.J.S.A. 17:27-7.3.

The Contractor or Subcontractor agrees that a good faith effort shall include compliance with the following procedures:

(A) If the Contractor or Subcontractor has a referral agreement or arrangement with a union for a construction trade, the Contractor or Subcontractor shall, within three (3) days of the contract award, seek assurances from the union that it will cooperate with the Contractor or Subcontractor as it fulfills its affirmative action obligations under this contract and in accordance with the rules promulgated by the Treasurer pursuant to N.J.S.A. 10:5-31 et. seq., as supplemented and amended from time to time and the American with Disabilities Act. If the Contractor or Subcontractor is unable to obtain said assurances from the construction trade union at least five (5) business days prior to the commencement of construction work, the Contractor or Subcontractor agrees to attempt to hire or schedule minority and women workers directly, consistent with the applicable employment goal. If the Contractor's or Subcontractor's prior experience with a construction trade union, regardless of whether the union has provided said assurances indicates a significant possibility that the trade union will not refer sufficient minority and women workers consistent with the applicable employment goal, the Contractor or Subcontractor agrees to be prepared to hire or schedule minority and women workers directly, consistent with the applicable employment goal, by complying with the hiring or scheduling procedures prescribed under (B) below; and the Contractor or Subcontractor further agrees to take said action if it determines or is so notified by the Division that the union is not referring minority and women workers consistent with the applicable employment goal.

(B) If the hiring or scheduling of a workforce consistent with the employment goal has not or cannot be achieved for each construction trade, by adhering to the procedures of (A) above, or if the Contractor or Subcontractor does not have a referral agreement or arrangement with a union for a construction trade, the Contractor or Subcontractor agrees to take the following actions consistent with the applicable county employment goal:

(1) To notify the Public Agency Compliance Officer, the Division, and minority and women referral organizations listed by the Division pursuant to N.J.A.C. 17:27-5.3, of its workforce needs, and request referral of minority and women workers;

(2) To notify any minority and women workers who have been listed with it as awaiting available vacancies;

(3) Prior to commencement of work, to request the local construction trade union refer minority and women workers to fill job openings, provided that the Contractor or Subcontractor has a referral agreement or arrangement with a union for the construction trade;

(4) To leave standing requests for additional referral of minority and women workers with the local construction trade union, provided the Contractor or Subcontractor has a referral agreement or arrangement with a union for the construction trade, the State Training and Employment Service and the other approved referral sources in the area until such time as the workforce is consistent with the employment goal;

(5) If it is necessary to lay off some of the workers in a given trade on the construction site, to assure, consistent with the applicable State and Federal statutes and court decisions, that sufficient minority and women employees remain on the site consistent with the employment goal; and to employ any minority and women workers so laid off by the Contractor or any other construction site on which its workforce composition is not consistent with an employment goal established pursuant to rules implementing N.J.S.A. 10:5-31 et seq.;

(6) To adhere to the following procedure when minority and women workers apply or are referred to the Contractors or Subcontractors:

(i) If said individuals have never previously received any document or certification signifying a level of qualification lower than that required in order to perform the work of the construction trade, the Contractor or Subcontractor shall determine the qualifications of such individuals and if the Contractor's or Subcontractor's workforce in each construction trade is not consistent with the applicable employment goal, it shall hire or schedule those individuals who satisfy appropriate qualification standards. However, a Contractor or Subcontractor shall determine that the individual at least possesses the requisite skills, and experience recognized by a union, apprentice program or referral agency, provided the referral agency is acceptable to the Division. If necessary, the Contractor or Subcontractor shall hire or schedule minority and women workers who qualify as trainees pursuant to these rules. All of the requirements, however, are limited by the provisions of (C) below.

(ii) If the Contractor's or Subcontractor's workforce is consistent with the applicable employment goal, the name of any interested women or minority individual shall be maintained on a waiting list for the first consideration, in the event the Contractor's or Subcontractor's workforce is no longer consistent with the applicable employment goal.

(iii) If, for any reason, said Contractor or Subcontractor determines that a minority individual or a woman is not qualified or if the individual qualifies as an advanced trainee or apprentice, said Contractor or Subcontractor shall inform the individual in writing of the reasons for the determination, maintain a copy of the determination in its files, and send a copy to the Public Agency Compliance Officer and to the Division.

(7) To keep a complete and accurate record of all requests made for the referral of workers in any trade covered by the contract, on forms made available by the Division and submitted promptly to the Division upon request.

(C) The Contractor or Subcontractor agrees that nothing contained in (B) above shall preclude the Contractor or Subcontractor from complying with the union hiring hall or apprenticeship policies in any applicable collective bargaining agreement or union hiring hall arrangement, and where required by custom or agreement, it shall send journeymen and trainees to the union for referral, or to the apprenticeship program for admission, pursuant to such agreement or arrangement. However, where the practices of a union or apprenticeship program will result in the exclusion of minorities and women or the failure to refer minorities and women consistent with the county employment goal, the Contractor or Subcontractor shall consider for employment persons referred pursuant to (B) above without regard to such agreement or arrangement; provided further, however, that the Contractor or Subcontractor shall not be required to employ women and minority advanced trainees and trainees in numbers which result in the employment of advanced trainees as a percentage of the total workforce for the construction trade, which percentage significantly exceeds the apprentice to journey worker ratio specified in the applicable collective bargaining agreement, or in the absence of a collective bargaining agreement, exceeds the ratio established by practice in the area for said construction trade. Also the Contractor or Subcontractor agrees that, in implementing the procedures of (B) above, it shall, where applicable, employ minority and women workers residing within the geographical jurisdiction of the union.

After notification of award, but prior to signing a construction contract, the Contractor shall submit to the Public Agency Compliance Officer and the Division an initial project workforce report (Form AA 201) provided to the public agency by the Division for distribution to and completion by the Contractor, in accordance with N.J.A.C. 17:27-7. The Contractor also agrees to submit a copy of the Monthly Project Workforce Report once a month thereafter for the duration of this contract to the Division and to the Public Agency Compliance Officer.

The Contractor agrees to cooperate with the public agency in the payment of budgeted funds, as necessary, for on-the-job and/or off-the-job programs for outreach and training of minorities and women.

(D) The Contractor and its Subcontractors shall furnish such reports or other documents to the Division of Contract Compliance & EEO as may be requested by the Division from time to time in order to carry out the purposes of these regulations, and public agencies shall

furnish such information as may be requested by the Division of Contract Compliance & EEO for conducting a compliance investigation pursuant to Subchapter 10 of the Administrative Code (N.J.A.C. 17:27).

Section 7. Acknowledgement of compliance with Section 11 of Chapter 150 of the Public Laws of 1963 (C.34:11-56.35 et seq.)

Contractor hereby acknowledges its duty to comply with C.34:11-56.35 as amended by P.L. 2019 c.158. This statute allows the Commissioner of Labor and Workforce Development to immediately issue a stop-work order if it makes an initial determination that an employer has violated the Prevailing Wage Act by paying wages at rates less than the rates required under the act. Such stop-work order will remain in effect until the employer has agreed to pay the required wages, any wages due and any penalty, and the Commissioner of Labor and Workforce Development issues a subsequent order releasing the stop-work order. If the stop-work order is issued against a subcontractor, the General Contractor has the right to terminate such subcontractor. A $5,000 per day civil penalty may be imposed against any employer violating the stop-work order. Furthermore, the Department of Labor and Workforce Development is entitled to enter the place of business during usual business hours to determine compliance with wage and hour laws by examining payroll and other records, interviewing employees, calling hearings, administering oaths, taking testimony under oath and taking depositions to determine compliance with wage and hour laws. Any employer or agent of the employer who willfully fails to furnish time and wage record or who refuses to admit the Department into the place or who hinders or delays the Department in the performance of duties may be fined not less than $1,000 and will be guilty of a disorderly person offense, with each day of continuing noncompliance or hindrance constituting a separate offense.

Contractor hereby agrees that it shall not submit any change order for increased compensation related to delay, remobilization, liquidated damages, or other similar grounds resulting from a stop-work order issued under this law, regardless of whether the underlying violation was intentional or unintentional, or whether such violation was committed by the Bidder or any of its Subcontractors.

Section 8. Furnishing of Maintenance Bond.

The Contractor shall be obligated to provide a maintenance bond to the Township following the completion of services under this contract, pursuant to the bid specifications.

Section 9. Liquidated Damages.

In the event of the failure of the Contractor to fulfill its obligations hereunder within the time stated herein, the Contractor shall be liable to pay liquidated damages to the Township **(per General Conditions 4.23 based on contract value)** for each day the contract remains incomplete. The sum shall be treated as liquidated damages and not a penalty for the loss of the Township of the use of the premises in a completed state of construction, alteration or repair and for added administrative and inspection costs to the Township on account of the delay; provided, however, that said liquidated damages shall be in addition to other consequential losses or damages that the Township may incur by reason of such delay, such as, but not limited to, added cost to the project and the cost of furnishing temporary accommodations for Township operations. Any such sums for which the Contractor is liable may be deducted by the Township from any monies due or to become due to the Contractor.

The said amount is fixed and agreed upon by and between the Contractor and the Township because of the impracticality and extreme difficulty affixing and ascertaining the actual damages the Township will suffer.

Section 10. General Conditions.

a. This Agreement incorporates by reference all provisions of the bid documents, including specifications and general conditions and instructions to bidders. This Agreement and the bid documents supersede all other representations and understandings between the parties.

b. This Agreement is binding upon the Township, its successors or assigns and upon the Contractor and its successors. This Agreement may not be assigned by the Contractor.

c. The Township shall recognize only the Contractor for the proper execution of this Agreement and work performed under this Agreement in accordance with the Contract Documents. Approval of a Subcontractor by the Township in no way relieves the Contractor from full responsibility for fulfilling all conditions of the Agreement.

d. This Agreement shall be governed by and interpreted under the laws of the State of New Jersey.

e. Any notices to be given under this Agreement shall be via first-class mail, addressed to the respective party at the address first appearing in this Agreement.

IN WITNESS WHEREOF, the Township has caused this instrument to be signed by its Mayor, attested to by its Clerk and its corporate seal is hereunto affixed, pursuant to a Resolution of the Township Council of the Township of West Windsor passed for that purpose, and the Contractor has set its hand and seal the day and year first written above.

PREVAILING WAGE AFFIDAVIT

The successful bidder agrees to comply with the New Jersey Prevailing Wage Act, N.J.S.A. 34:11-56.25 et seq. (P.L.1963, Chapter 150 as amended by P.L. 2019 c.158) for contracts entered into with the Township of West Windsor, except those contracts which are not within the scope of the act.

The successful bidder and any of its subcontractors shall be obligated to pay the prevailing wage, to submit certified payrolls as documentation of compliance and to permit on-site monitoring, including interviews with employees and review subcontracts by Township representatives. The bidder's signature on this proposal is his guarantee that neither he nor any subcontractor that he may employ to perform the work covered by this bid are listed or are on record in the Office of the Commission of the New Jersey Department of Labor as one who has failed to pay prevailing wages in accordance with the provisions of this act.

Every Contractor and subcontractor shall keep an accurate payroll record, showing the name, craft or trade, job title or classification, actual hourly rate or wages paid, hours worked and total wages paid to each workman employed by him/her in connection with a public work. Payroll records shall be preserved for a period of two (2) years from the date of payment.

The successful bidder agrees to indemnify and hold harmless the Township of West Windsor, the Township Council of the Township of West Windsor and all of its officers, agents and employees of and from any and all liability damages and attorney fees associated with a New Jersey Department of Labor investigation and/or determination that the New Jersey Prevailing Wage Act was not complied with.

The statute (N.J.S.A. 34:11-56.35 as amended by P.L. 2019 c.158) allows the Commissioner of Labor and Workforce Development to **immediately issue a stop-work order** if it makes an initial determination that an employer has violated the Prevailing Wage Act by paying wages at rates less than the rates required under the act. Such stop-work order will remain in effect until the employer has agreed to pay the required wages, any wages due and any penalty, and the Commissioner of Labor and Workforce Development issues a subsequent order releasing the stop-work order. If the stop-work order is issued against a subcontractor, the general Contractor has the right to terminate such subcontractor. A $5,000 per day civil penalty may be imposed against any employer violating the stop-work order.

Furthermore, the Department of Labor and Workforce Development is entitled to enter the place of business during usual business hours to determine compliance with wage and hour laws by examining payroll and other records, interviewing employees, calling hearings, administering oaths, taking testimony under oath and taking depositions to determine compliance with wage and hour laws. Any employer or agent of the employer who willfully fails to furnish time and wage record or who refuses to admit the Department into the place or who hinders or delays the Department in the performance of duties may be fined not less than $1,000 and will be guilty of a disorderly person offense, with each day of continuing noncompliance or hindrance constituting a separate offense.

P.L. 2021, c. 301, effective as of May 7, 2022, requires the successful bidder submitting the lowest bid for a contract that is subject to the Prevailing Wage Act, if that bid is 10 percent or more lower than the next lowest bid, to certify to the public body that the prevailing wage rates required by the Act shall be paid.

Contractor agrees that it shall not submit any change order for increased compensation related to delay, remobilization, liquidated damages, or other similar grounds resulting from a stop-work order

issued under this law, regardless of whether the underlying violation was intentional or unintentional, or whether such violation was committed by the Bidder or any of its subcontractors.

AMERICANS WITH DISABILITIES ACT MANDATORY LANGUAGE

Equal Opportunity for Individuals with Disabilities

The Contractor and the Township of West Windsor (hereinafter the "Township") do hereby agree that the provisions of Title II of the Americans with Disabilities Act of 1990 (the "Act"), 42 U.S.C. 12101 et seq., which prohibits discrimination on the basis of disability by public entities in all services, programs, and activities provided or made available by public entities and the rules and regulations promulgated pursuant thereunto, are made a part of this contract. In providing any aid, benefit, or service on behalf of the Township pursuant to this contract, the Contractor agrees that the performance shall be in strict compliance with the Act. SUBCONTRACTOR DECLARATION and LIST OF SUBCONTRACTORS

IF THE PROJECT'S SCOPE OF WORK INVOLVES SPECIALTY TRADE CATEGORIES, PLEASE LIST SUBCONTRACTOR INFORMATION AND/OR SUB-SUBCONTRACTOR INFORMATION BELOW.

There shall be submitted proof that each subcontractor is qualified in accordance with the rules and regulations of the State of New Jersey when such rules and regulations exist.

Each Bidder shall set forth in the Bid, the names, addresses and license numbers (when required) of each subcontractor for the furnishing of plumbing and gas fitting, and all kindred work, and of the steam and hot water heating and ventilating apparatus, steam power plants and kindred work, and electrical work, structural steel and ornamental iron work, if any, for the construction, alteration or repair of any public buildings.

A General Contractor that intended to utilize a specific subcontractor to perform work in one or more of the specialty trade categories shall provide the required information with regard to that subcontractor in the appropriate space for each specialty trade category applicable to the contract.

All Bidders seeking to perform plumbing work on a publicly bid contract are required to comply with N.J.S.A. 45:14C-2 and N.J.A.C. 13:23-1.3. These provisions require that plumbing work on such contract may only be performed by an entity in which a licensed master plumber owns not less than 10% of the issued and outstanding shares of stock in the corporation, or not less than 10% of the capital of the partnership, or not less than 10% of the ownership of any other legal firm or legal entity. Accordingly, if a Bidder intends to perform plumbing work on a publicly bid contract with its own employees or by the Bidder himself, a master plumber must possess an ownership interest that complies with N.J.S.A. 45:14C-2 and N.J.A.C. 13:23-1.3 in the entity submitting the bid. Alternately, if a Bidder intends to perform such work through a subcontractor, a master plumber must possess an ownership interest that complies with N.J.S.A. 45:14C-2 and N.J.A.C. 13:23-1.3.

If the project's scope of work involves specialty trade categories, the General Contractor that intends to perform work in one or more of the specialty trade categories through the use of its own employees or the General Contractor himself rather than through the utilization of a subcontractor shall write the words "**IN-HOUSE**" next to each applicable category and then insert the name, and the license number where required, of each such employee of the General Contractor or the General Contractor himself in the appropriate spaces for each specialty trade category applicable to the contract.

If the contract does not involve any of the specialty trade categories, please write the word "**NONE**" in the appropriate space provided.

Section 6. Statement of Compliance with Chapter 127 of the Public Laws of 1975 (N.J.A.C. 17:27)

During the performance of this contract, the successful Bidder/Contractor agrees as follows:

a. The Contractor or Subcontractor, where applicable, will not discriminate against any employee or applicant for employment because of age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation or sex. The Contractor will take affirmative action to ensure that such applicants are recruited and employed, and that employees are treated during employment, without regard to their age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation or sex. Such action shall include but not be limited to the following: employment; upgrading; demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The Contractor agrees to post in conspicuous places, available to employees and applicants for

employment, notices to be provided by the Public Agency Compliance Officer setting forth provisions of this non-discrimination clause.

b. The Contractor or Subcontractor, where applicable, will in all solicitations or advertisements for employees placed by or on behalf of the Contractor, state that all qualified applicants will receive consideration for employment without regard to age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation or sex.

c. The Contractor or Subcontractor, where applicable, will send to each labor union or representative of workers with which it has a collective bargaining agreement or other contract or understanding, a notice, to be provided by the Public Agency Compliance Officer, advising the labor union or workers' representative of the Contractor's commitments under this act and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

d. The Contractor or Subcontractor, where applicable, agrees to comply with any regulations promulgated by the Treasurer pursuant to N.J.S.A. 10:5-31 et seq., as amended and supplemented from time to time, and the Americans with Disabilities Act.

e. When hiring or scheduling workers in each construction trade, the Contractor or Subcontractor agrees to make good faith efforts to employ minority and women workers in each construction trade consistent with the applicable employment goal prescribed by N.J.A.C 17:27-7.3; provided, however, that the Division may, in its discretion, exempt a Contractor or Subcontractor from compliance with the good faith procedures prescribed by the following provisions, A, B, and C as long as the Division is satisfied that the Contractor or Subcontractor is employing workers provided by a union which provides evidence, in accordance with standards prescribed by the Division, that its percentage of active "card carrying" members who are minority and women workers is equal to or greater than the applicable employment goal prescribed in accordance with N.J.S.A. 17:27-7.3.

The Contractor or Subcontractor agrees that a good faith effort shall include compliance with the following procedures:

(A) If the Contractor or Subcontractor has a referral agreement or arrangement with a union for a construction trade, the Contractor or Subcontractor shall, within three (3) days of the contract award, seek assurances from the union that it will cooperate with the Contractor or Subcontractor as it fulfills its affirmative action obligations under this contract and in accordance with the rules promulgated by the Treasurer pursuant to N.J.S.A. 10:5-31 et. seq., as supplemented and amended from time to time and the American with Disabilities Act. If the Contractor or Subcontractor is unable to obtain said assurances from the construction trade union at least five (5) business days prior to the commencement of construction work, the Contractor or Subcontractor agrees to attempt to hire or schedule minority and women workers directly, consistent with the applicable employment goal. If the Contractor's or Subcontractor's prior experience with a construction trade union, regardless of whether the union has provided said assurances indicates a significant possibility that the trade union will not refer sufficient minority and women workers consistent with the applicable employment goal, the Contractor or Subcontractor agrees to be prepared to hire or schedule minority and women workers directly, consistent with the applicable employment goal, by complying with the hiring or scheduling procedures prescribed under (B) below; and the Contractor or Subcontractor further agrees to take said action if it determines or is so notified by the Division that the union is not referring minority and women workers consistent with the applicable employment goal.

(B) If the hiring or scheduling of a workforce consistent with the employment goal has not or cannot be achieved for each construction trade, by adhering to the procedures of (A) above, or if the Contractor or Subcontractor does not have a referral agreement or arrangement with a union for a construction trade, the Contractor or Subcontractor agrees to take the following actions consistent with the applicable county employment goal:

(1) To notify the Public Agency Compliance Officer, the Division, and minority and women referral organizations listed by the Division pursuant to N.J.A.C. 17:27-5.3, of its workforce needs, and request referral of minority and women workers;

(2) To notify any minority and women workers who have been listed with it as awaiting available vacancies;

(3) Prior to commencement of work, to request the local construction trade union refer minority and women workers to fill job openings, provided that the Contractor or Subcontractor has a referral agreement or arrangement with a union for the construction trade;

(4) To leave standing requests for additional referral of minority and women workers with the local construction trade union, provided the Contractor or Subcontractor has a referral agreement or arrangement with a union for the construction trade, the State Training and Employment Service and the other approved referral sources in the area until such time as the workforce is consistent with the employment goal;

(5) If it is necessary to lay off some of the workers in a given trade on the construction site, to assure, consistent with the applicable State and Federal statutes and court decisions, that sufficient minority and women employees remain on the site consistent with the employment goal; and to employ any minority and women workers so laid off by the Contractor or any other construction site on which its workforce composition is not consistent with an employment goal established pursuant to rules implementing N.J.S.A. 10:5-31 et seq.;

(6) To adhere to the following procedure when minority and women workers apply or are referred to the Contractors or Subcontractors:

(i) If said individuals have never previously received any document or certification signifying a level of qualification lower than that required in order to perform the work of the construction trade, the Contractor or Subcontractor shall determine the qualifications of such individuals and if the Contractor's or Subcontractor's workforce in each construction trade is not consistent with the applicable employment goal, it shall hire or schedule those individuals who satisfy appropriate qualification standards. However, a Contractor or Subcontractor shall determine that the individual at least possesses the requisite skills, and experience recognized by a union, apprentice program or referral agency, provided the referral agency is acceptable to the Division. If necessary, the Contractor or Subcontractor shall hire or schedule minority and women workers who qualify as trainees pursuant to these rules. All of the requirements, however, are limited by the provisions of (C) below.

(ii) If the Contractor's or Subcontractor's workforce is consistent with the applicable employment goal, the name of any interested women or minority individual shall be maintained on a waiting list for the first consideration, in the event the Contractor's or Subcontractor's workforce is no longer consistent with the applicable employment goal.

(iii) If, for any reason, said Contractor or Subcontractor determines that a minority individual or a woman is not qualified or if the individual qualifies as an advanced trainee or apprentice, said Contractor or Subcontractor shall inform the individual in writing of the reasons for the determination, maintain a copy of the determination in its files, and send a copy to the Public Agency Compliance Officer and to the Division.

(7) To keep a complete and accurate record of all requests made for the referral of workers in any trade covered by the contract, on forms made available by the Division and submitted promptly to the Division upon request.

(C) The Contractor or Subcontractor agrees that nothing contained in (B) above shall preclude the Contractor or Subcontractor from complying with the union hiring hall or apprenticeship policies in any applicable collective bargaining agreement or union hiring hall arrangement, and where required by custom or agreement, it shall send journeymen and trainees to the union for referral, or to the apprenticeship program for admission, pursuant to such agreement or arrangement. However, where the practices of a union or apprenticeship program will result in the exclusion of minorities and women or the failure to refer minorities and women consistent with the county employment goal, the Contractor or Subcontractor shall consider for employment persons referred pursuant to (B) above without regard to such agreement or arrangement; provided further, however, that the Contractor or Subcontractor shall not be required to employ women and minority advanced trainees and trainees in numbers which result in the employment of advanced trainees as a percentage of the total workforce for the construction trade, which percentage significantly exceeds the apprentice to journey worker ratio specified in the applicable collective bargaining agreement, or in the absence of a collective bargaining agreement, exceeds the ratio established by practice in the area for said construction trade. Also the Contractor or Subcontractor agrees that, in implementing the procedures of (B) above, it shall, where applicable, employ minority and women workers residing within the geographical jurisdiction of the union.

After notification of award, but prior to signing a construction contract, the Contractor shall submit to the Public Agency Compliance Officer and the Division an initial project workforce report (Form AA 201) provided to the public agency by the Division for distribution to and completion by the Contractor, in accordance with N.J.A.C. 17:27-7. The Contractor also agrees to submit a copy of the Monthly Project Workforce Report once a month thereafter for the duration of this contract to the Division and to the Public Agency Compliance Officer.

The Contractor agrees to cooperate with the public agency in the payment of budgeted funds, as necessary, for on-the-job and/or off-the-job programs for outreach and training of minorities and women.

(D) The Contractor and its Subcontractors shall furnish such reports or other documents to the Division of Contract Compliance & EEO as may be requested by the Division from time to time in order to carry out the purposes of these regulations, and public agencies shall

furnish such information as may be requested by the Division of Contract Compliance & EEO for conducting a compliance investigation pursuant to Subchapter 10 of the Administrative Code (N.J.A.C. 17:27).

Section 7. Acknowledgement of compliance with Section 11 of Chapter 150 of the Public Laws of 1963 (C.34:11-56.35 et seq.)

Contractor hereby acknowledges its duty to comply with C.34:11-56.35 as amended by P.L. 2019 c.158. This statute allows the Commissioner of Labor and Workforce Development to immediately issue a stop-work order if it makes an initial determination that an employer has violated the Prevailing Wage Act by paying wages at rates less than the rates required under the act. Such stop-work order will remain in effect until the employer has agreed to pay the required wages, any wages due and any penalty, and the Commissioner of Labor and Workforce Development issues a subsequent order releasing the stop-work order. If the stop-work order is issued against a subcontractor, the General Contractor has the right to terminate such subcontractor. A $5,000 per day civil penalty may be imposed against any employer violating the stop-work order. Furthermore, the Department of Labor and Workforce Development is entitled to enter the place of business during usual business hours to determine compliance with wage and hour laws by examining payroll and other records, interviewing employees, calling hearings, administering oaths, taking testimony under oath and taking depositions to determine compliance with wage and hour laws. Any employer or agent of the employer who willfully fails to furnish time and wage record or who refuses to admit the Department into the place or who hinders or delays the Department in the performance of duties may be fined not less than $1,000 and will be guilty of a disorderly person offense, with each day of continuing noncompliance or hindrance constituting a separate offense.

Contractor hereby agrees that it shall not submit any change order for increased compensation related to delay, remobilization, liquidated damages, or other similar grounds resulting from a stop-work order issued under this law, regardless of whether the underlying violation was intentional or unintentional, or whether such violation was committed by the Bidder or any of its Subcontractors.

Section 8. Furnishing of Maintenance Bond.

The Contractor shall be obligated to provide a maintenance bond to the Township following the completion of services under this contract, pursuant to the bid specifications.

Section 9. Liquidated Damages.

In the event of the failure of the Contractor to fulfill its obligations hereunder within the time stated herein, the Contractor shall be liable to pay liquidated damages to the Township **(per General Conditions 4.23 based on contract value)** for each day the contract remains incomplete. The sum shall be treated as liquidated damages and not a penalty for the loss of the Township of the use of the premises in a completed state of construction, alteration or repair and for added administrative and inspection costs to the Township on account of the delay; provided, however, that said liquidated damages shall be in addition to other consequential losses or damages that the Township may incur by reason of such delay, such as, but not limited to, added cost to the project and the cost of furnishing temporary accommodations for Township operations. Any such sums for which the Contractor is liable may be deducted by the Township from any monies due or to become due to the Contractor.

The said amount is fixed and agreed upon by and between the Contractor and the Township because of the impracticality and extreme difficulty affixing and ascertaining the actual damages the Township will suffer.

Section 10. General Conditions.

a. This Agreement incorporates by reference all provisions of the bid documents, including specifications and general conditions and instructions to bidders. This Agreement and the bid documents supersede all other representations and understandings between the parties.

b. This Agreement is binding upon the Township, its successors or assigns and upon the Contractor and its successors. This Agreement may not be assigned by the Contractor.

c. The Township shall recognize only the Contractor for the proper execution of this Agreement and work performed under this Agreement in accordance with the Contract Documents. Approval of a Subcontractor by the Township in no way relieves the Contractor from full responsibility for fulfilling all conditions of the Agreement.

d. This Agreement shall be governed by and interpreted under the laws of the State of New Jersey.

e. Any notices to be given under this Agreement shall be via first-class mail, addressed to the respective party at the address first appearing in this Agreement.

IN WITNESS WHEREOF, the Township has caused this instrument to be signed by its Mayor, attested to by its Clerk and its corporate seal is hereunto affixed, pursuant to a Resolution of the Township Council of the Township of West Windsor passed for that purpose, and the Contractor has set its hand and seal the day and year first written above.

Every Contractor and subcontractor shall keep an accurate payroll record, showing the name, craft or trade, job title or classification, actual hourly rate or wages paid, hours worked and total wages paid to each workman employed by him/her in connection with a public work. Payroll records shall be preserved for a period of two (2) years from the date of payment.

The successful bidder agrees to indemnify and hold harmless the Township of West Windsor, the Township Council of the Township of West Windsor and all of its officers, agents and employees of and from any and all liability damages and attorney fees associated with a New Jersey Department of Labor investigation and/or determination that the New Jersey Prevailing Wage Act was not complied with.

The statute (N.J.S.A. 34:11-56.35 as amended by P.L. 2019 c.158) allows the Commissioner of Labor and Workforce Development to **immediately issue a stop-work order** if it makes an initial determination that an employer has violated the Prevailing Wage Act by paying wages at rates less than the rates required under the act. Such stop-work order will remain in effect until the employer has agreed to pay the required wages, any wages due and any penalty, and the Commissioner of Labor and Workforce Development issues a subsequent order releasing the stop-work order. If the stop-work order is issued against a subcontractor, the general Contractor has the right to terminate such subcontractor. A $5,000 per day civil penalty may be imposed against any employer violating the stop-work order.

Furthermore, the Department of Labor and Workforce Development is entitled to enter the place of business during usual business hours to determine compliance with wage and hour laws by examining payroll and other records, interviewing employees, calling hearings, administering oaths, taking testimony under oath and taking depositions to determine compliance with wage and hour laws. Any employer or agent of the employer who willfully fails to furnish time and wage record or who refuses to admit the Department into the place or who hinders or delays the Department in the performance of duties may be fined not less than $1,000 and will be guilty of a disorderly person offense, with each day of continuing noncompliance or hindrance constituting a separate offense.

P.L. 2021, c. 301, effective as of May 7, 2022, requires the successful bidder submitting the lowest bid for a contract that is subject to the Prevailing Wage Act, if that bid is 10 percent or more lower than the next lowest bid, to certify to the public body that the prevailing wage rates required by the Act shall be paid.

Contractor agrees that it shall not submit any change order for increased compensation related to delay, remobilization, liquidated damages, or other similar grounds resulting from a stop-work order

issued under this law, regardless of whether the underlying violation was intentional or unintentional, or whether such violation was committed by the Bidder or any of its subcontractors.

OLD BRIDGE, NJ 08857

Dear Sir/Madam,
In accordance with Title 27:7-35 et seq., and Regulation of the New Jersey Department of Transportation, you are hereby notified that your firm has been CLASSIFIED by the New Jersey Department of Transportation. Please see ATTACHMENT A for your firm's assigned financial capability, work classification(s), and project rating(s).

Your firm's financial capability is based on (net working capital or (Net Worth x 15) + (net book value of construction equipment, less the value of any outstanding loans x 15) + (unsecured lines of credit in accordance with the Questionaire x 7) as determined by the Department from the information your firm submitted for the Close of Business on 12/31/2024 Please see ATTACHMENT B for explanation.

Your firm's financial capability is defined as the dollar threshold on the maximum of a project rating, which is assigned by the Department pursuant to N.J.A.C. 16:44-3.6 upon examination of the contractor's Questionaire and financial statement submitted in accordance with this chapter. Project Rating is defined as the maximum dollar amount that a Contractor shall be allowed to bid in a particular work type on and individual project.

This CLASSIFICATION will be effective on 7/12/2025 and will expire on 6/30/2026

Bid will only be accepted from a contractor classified with the Department pursuant to N.J.A.C. 16:44-3. Bids will only be accepted from a contractor who has been classified in at least one of the work classifications required in the project advertisement. Bids will be accepted from a contractor in an amount that does not exceed its project rating. When there is a question as to whether a bid is within the contractor's classification or, where it reasonably appears that a contractor may not have the classification that will allow it to bid on a project for which bids are being sought, the bid will be opened provisionally. If the bid is for a different work classification or in a dollar amount greater than the contractor's maximum project rating, the bid will be rejected.

NOTICE OF CLASSIFICATION
BLACK ROCK ENTERPRISES, LLC

Please be advised that the supplementary provisions (Project specific Specifications) for all present and future Bridge Painting contracts required all contractors and sub-contractors to have valid Certificates SSPC-QP1 and SSPC-QP2 issued by The Society for Protective Coatings (http://www.sspc.org/) at the time of bid and duration of the contract.

In order to be continuously eligible to bid on projects to be undertaken by this Department, your firm's next Contractor's Financial and Equipment Statement should be submitted one month before the expiration date, but must be received at least 15 days prior to the date set for receipt of bids for which the classification will be used.

Requirements of New Jersey Administrative Code 16:44-12.1 and 12.2 must be complied with by all corporations classified with the New Jersey Department of Transportation.

NOTICE OF CLASSIFICATION
STRAIGHT EDGE STRIPING, LLC

June 25 2024

Identification Number: 20-3662885

STRAIGHT EDGE STRIPING, LLC
201 WILTON AVENUE
MIDDLESEX, NJ 08846

Dear Sir/Madam,
In accordance with Title 27:7-35 et seq., and Regulation of the New Jersey Department of Transportation, you are hereby notified that your firm has been CLASSIFIED by the New Jersey Department of Transportation. Please see ATTACHMENT A for your firm's assigned financial capability, work classification(s), and project rating(s).

Your firm's financial capability is based on (net working capital or (Net Worth x 15) + (net book value of construction equipment, less the value of any outstanding loans x 15) + (unsecured lines of credit in accordance with the Questionaire x 7) as determined by the Department from the information your firm submitted for the Close of Business on 12/31/2023 Please see ATTACHMENT B for explanation.

Your firm's financial capability is defined as the dollar threshold on the maximum of a project rating, which is assigned by the Department pursuant to N.J.A.C. 16:44-3.6 upon examination of the contractor's Questionaire and financial statement submitted in accordance with this chapter. Project Rating is defined as the maximum dollar amount that a Contractor shall be allowed to bid in a particular work type on and individual project.

This CLASSIFICATION will be effective on 7/3/2024 and will expire on 6/30/2025

This denotes your maximum financial capability and project rating(s) are limited to no greater than $10,000,000 since your firm has chosen to submit a CPA review of your financial statements

Bid will only be accepted from a contractor classified with the Department pursuant to N.J.A.C. 16:44-3. Bids will only be accepted from a contractor who has been classified in at least one of the work classifications required in the project advertisement. Bids will be accepted from a contractor in an amount that does not exceed its project rating. When there is a question as to whether a bid is within the contractor's classification or, where it reasonably appears that a contractor may not have the classification that will allow it to bid on a project for which bids are being sought, the bid will be opened provisionally. If the bid is for a different work classification or in a dollar amount greater than the contractor's maximum project rating, the bid will be rejected.

NOTICE OF CLASSIFICATION
STRAIGHT EDGE STRIPING, LLC

In order to be continuously eligible to bid on projects to be undertaken by this Department, your firm's next Contractor's Financial and Equipment Statement should be submitted one month before the expiration date, but must be received at least 15 days prior to the date set for receipt of bids for which the classification will be used.

Requirements of New Jersey Administrative Code 16:44-12.1 and 12.2 must be complied with by all corporations classified with the New Jersey Department of Transportation.

Sincerely,

Mario Serenelli

Manager

c. **Method Of Sharing**

If all of the other insurance permits contribution by equal shares, we will follow this method also. Under this approach each insurer contributes equal amounts until it has paid its applicable limit of insurance or none of the loss remains, whichever comes first.

If any of the other insurance does not permit contribution by equal shares, we will contribute by limits. Under this method, each insurer's share is based on the ratio of its applicable limit of insurance to the total applicable limits of insurance of all insurers.

d. **Primary And Non-Contributory Insurance If Required By Written Contract**

If you specifically agree in a written contract or agreement that the insurance afforded to an insured under this Coverage Part must apply on a primary basis, or a primary and non-contributory basis, this insurance is primary to other insurance that is available to such insured which covers such insured as a named insured, and we will not share with that other insurance, provided that:

(1) The "bodily injury" or "property damage" for which coverage is sought occurs; and

(2) The "personal and advertising injury" for which coverage is sought is caused by an offense that is committed;

subsequent to the signing of that contract or agreement by you.

5. **Premium Audit**

a. We will compute all premiums for this Coverage Part in accordance with our rules and rates.

b. Premium shown in this Coverage Part as advance premium is a deposit premium only. At the close of each audit period we will compute the earned premium for that period and send notice to the first Named Insured. The due date for audit and retrospective premiums is the date shown as the due date on the bill. If the sum of the advance and audit premiums paid for the policy period is greater than the earned premium, we will return the excess to the first Named Insured.

c. The first Named Insured must keep records of the information we need for premium computation, and send us copies at such times as we may request.

6. **Representations**

By accepting this policy, you agree:

a. The statements in the Declarations are accurate and complete;

b. Those statements are based upon representations you made to us; and

c. We have issued this policy in reliance upon your representations.

The unintentional omission of, or unintentional error in, any information provided by you which we relied upon in issuing this policy will not prejudice your rights under this insurance. Except with respect to the Limits of Insurance, and any rights or duties specifically assigned in this Coverage Part to the first Named Insured, this insurance applies:

a. As if each Named Insured were the only Named Insured; and

b. Separately to each insured against whom claim is made or "suit" is brought.

8. **Transfer Of Rights Of Recovery Against Others To Us**

If the insured has rights to recover all or part of any payment we have made under this Coverage Part, those rights are transferred to us. The insured must do nothing after loss to impair them. At our request, the insured will bring "suit" or transfer those rights to us and help us enforce them.

9. **When We Do Not Renew**

If we decide not to renew this Coverage Part, we will mail or deliver to the first Named Insured shown in the Declarations written notice of the nonrenewal not less than 30 days before the expiration date.

GENERAL AGGREGATE LIMIT SHOWN ON THE DECLARATIONS.

A. For all sums which the insured becomes legally obligated to pay as damages caused by "occurrences" under **COVERAGE A. (SECTION I)**, and for all medical expenses caused by accidents under **COVERAGE C (SECTION I)**, which can be attributed only to operations at a single designated "project" shown in the Schedule above:

1. A separate Designated Project General Aggregate Limit applies to each designated "project", and that limit is equal to the amount of the General Aggregate Limit shown in the Declarations, unless separate **Designated Project General Aggregate(s)** are scheduled above.
2. The Designated Project General Aggregate Limit is the most we will pay for the sum of all damages under **COVERAGE A.**, except damages because of "bodily injury" or "property damage" included in the "products-completed operations hazard", and for medical expenses under **COVERAGE C**, regardless of the number of:
   a. Insureds;
   b. Claims made or "suits" brought; or
   c. Persons or organizations making claims or bringing "suits".
3. Any payments made under **COVERAGE A.** for damages or under **COVERAGE C.** for medical expenses shall reduce the Designated Project General Aggregate Limit for that designated "project". Such payments shall not reduce the General Aggregate Limit shown in the Declarations nor shall they reduce any other Designated Project General Aggregate Limit for any other designated "project" shown in the Schedule above.
4. The limits shown in the Declarations for **Each Occurrence, Damage To Premises Rented To You and Medical Expense** continue to apply. However, instead of being subject to the General Aggregate Limit shown in the Declarations, such limits will be subject to the applicable Designated Project General Aggregate Limit.

B. For all sums which the insured becomes legally obligated to pay as damages caused by "occurrences" under **COVERAGE A. (SECTION I)**, and for all medical expenses caused by accidents under **COVERAGE C. (SECTION I)**, which cannot be attributed only to operations at a single designated "project" shown in the Schedule above:

Copyright, The Travelers Indemnity Company, 2004

1. Any payments made under **COVERAGE A.** for damages or under **COVERAGE C.** for medical expenses shall reduce the amount available under the General Aggregate Limit or the Products-Completed Operations Aggregate Limit, whichever is applicable; and
2. Such payments shall not reduce any Designated Project General Aggregate Limit.

C. Part 2. of **SECTION III – LIMITS OF INSURANCE** is deleted and replaced by the following:

2. The General Aggregate Limit is the most we will pay for the sum of:
   a. Damages under **Coverage B**; and
   b. Damages from "occurrences" under **COVERAGE A (SECTION I)** and for all medical expenses caused by accidents under **COVERAGE C (SECTION I)** which cannot be attributed only to operations at a single designated "project" shown in the **SCHEDULE** above.

D. When coverage for liability arising out of the "products-completed operations hazard" is provided, any payments for damages because of "bodily injury" or "property damage" included in the "products-completed operations hazard" will reduce the Products-Completed Operations Aggregate Limit, and not reduce the General Aggregate Limit nor the Designated Project General Aggregate Limit.

E. For the purposes of this endorsement the **Definitions Section** is amended by the addition of the following definition:

"Project" means an area away from premises owned by or rented to you at which you are performing operations pursuant to a contract or agreement. For the purposes of determining the applicable aggregate limit of insurance, each "project" that includes premises involving the same or connecting lots, or premises whose connection is interrupted only by a street, roadway, waterway or right-of-way of a railroad shall be considered a single "project".

F. The provisions of **SECTION III – LIMITS OF INSURANCE** not otherwise modified by this endorsement shall continue to apply as stipulated.

INSTRUCTIONS TO BIDDERS

1. CONTRACT DOCUMENTS

The Contract Documents are defined in the General Conditions and may be obtained at the West Windsor Township Municipal Building during normal business hours upon payment of $50.00 for each set, no part of which will be refunded. Checks shall be made payable to the Township of West Windsor.

2. QUESTIONS

No oral interpretation shall be made to any Bidder as to the meaning of any of the Contract Documents or be effective to modify any of the provisions of the Contract Documents. All questions shall be submitted in writing to the Engineer and shall be postmarked at least ten (10) days, Saturdays, Sundays and holidays excepted, before the established date for Bid Opening. The Engineer will arrange an Addendum, which shall become part of the Contract, listing all pertinent questions received and his decision regarding each. Prior to the opening of Bids, a copy of these Addenda will be sent to each of those who have obtained a set of the Contract Documents from the Engineer. The Addenda shall be sent in one of the following ways: i) in writing by certified mail, ii) by certified facsimile transmission, meaning that the sender's facsimile machine produces a receipt showing date and time of transmission and that the transmission was successful, or iii) by a delivery service that provides certification of delivery to the sender.

Bidders shall acknowledge receipt of Addenda in the form provided in the Bid. In the event that the Bidder does not acknowledge receipt of any or all Addenda, the Bid shall be rejected as non-responsive.

3. OMISSIONS AND DISCREPANCIES

Should a Bidder find discrepancies or omissions in the Contract Documents, or should it be in doubt as to their meaning, it should immediately notify, in writing, the Engineer who shall issue an Addendum for clarification to all of those who have received sets of Contract Documents. Time limits shall be as defined in this *Instructions to Bidders,* section 2, Questions.

4. COMPARISON OF BIDS

Comparison of Bids will be made on the basis of the total price bid for all items listed, using the Engineer's estimate of the quantities as shown in the Bid, and the Contractor's unit prices. The estimates of the quantities given in the Bid are for the purpose of arriving at a total Price Bid for the project to make a comparison in awarding the work.

5. BIDDER'S WARRANTY

By the act of submitting a Bid for the proposed Contract, the Bidder warrants that neither the Bidder nor any of his employees, agents, intended suppliers or subcontractors have relied upon any verbal representations, allegedly authorized or unauthorized from the Owner, his employees or agents including architects, engineers or consultants, in assembling the Bid figures.

6. BIDS

All Bids must be presented upon the blank Bid Forms included in the Contract Documents, and shall state the proposed price for the work, both in words and figures, and shall be signed by the Bidder with

his business address and name of corporation or company. Bid forms shall not be altered or added to in any way.

7. TIME TO AWARD CONTRACT

The Owner will make an award of the Contract(s) under and pursuant to N.J.S.A. 40A:11-1 et seq., (New Jersey Public Contracts Law), within sixty (60) days from the date of the receipt of Bids.

8. OBLIGATION OF BIDDERS

At the time of the opening of Bids, each Bidder will be presumed to have inspected the site and to have read and to be thoroughly familiar with the Plans and Contract Documents, including all Addenda. The failure or omission of any Bidder to receive or examine any form, instrument or document shall in no way relieve any Bidder from his obligation to fulfill the requirements set forth in the Contract Documents of which his Bid is a part.

9. BID DEPOSIT

Each Bid must be accompanied by a Bid Deposit in the form of a Bid Bond issued by a Surety licensed in the State of New Jersey, cashier's check or a certified check issued by a national bank or trust company and payable to the order of the Owner in the amount of ten (10%) percent of the Bid or $20,000, whichever is less.

The Deposit shall be enclosed in the sealed envelope containing the Bid. Each Bid Deposit may be held by the Owner as security for fulfillment of the Bidder's promises, set forth in his Bid, that he will not withdraw his Bid while it is being considered and will execute the Contract Agreement and furnish the required bonds and insurance certificates if his Bid is accepted. Should the Bidder fail to fulfill such promises, its Bid Deposit shall become the property of, or be payable to, the Owner to be credited towards the damages defined in Section 20 of these Instructions, with any amount in excess of such damages being returned to the Bidder.

Unless it shall become the property of, or be payable to the Owner, said Deposit shall be returned to the Bidder as hereinafter provided. Bid Deposits will be returned to all except the three (3) lowest Bidders within ten (10) days, (Sunday and legal holidays excluded) after the formal opening of Bids, and to the three (3) lowest bidders within ten (10) days (Sundays and legal holidays excluded) after the Owner and the Accepted Bidder have executed the Contract Agreement. In the event that the Contract has not been awarded by the Owner within sixty (60) days after the opening of the Bids, the Bid Security will be returned promptly upon demand of any Bidder whose Bid has not been accepted.

None of the three (3) lowest Bids shall be deemed rejected, notwithstanding acceptance of one of the Bids, until the Contract Agreement has been executed by both the Owner and the Accepted Bidder.

10. DAMAGES

A successful Bidder, upon failure or refusal to execute and deliver the Contract Agreement and the required Bonds and Insurance Certificates within the time specified in the Bid, shall be liable to the Owner for damages suffered, which shall be defined as the difference between the amount specified in the successful Bid and the amount for which the Owner may contract with another party to perform the work covered by said Bid, if the latter amount be in excess of the former, together with any additional expenses incurred by the Owner as a result of such Bidder's failure to enter into the Contract, including, but not limited to, the expense for re-advertisement for Bids and the processing of such Bids.

11. NON-COLLUSION AFFIDAVIT

A Non-Collusion Affidavit, as included in the Bid Documents, must be completed and submitted with all Bids.

12. CONDITIONS OF WORK

Each Bidder must inform himself fully of the conditions relating to the construction and labor under which the work will be performed. Failure to do so will not relieve a successful Bidder of his obligations to furnish all material and labor necessary to carry out the provisions of the Contract Documents, and to complete the contemplated work for the consideration set forth in his Bid.

13. MATERIALS

All materials and equipment for the Project shall be furnished by the Contractor, unless otherwise specifically prescribed. They shall conform to Specifications and shall be from an accepted source.

14. TIME FOR COMPLETION

The Contractor will be required to complete the entire work proposed under this Contract within the time limit specified in the Agreement located in the Bid Form Section of these Specifications.

15. INFORMATION NOT GUARANTEED

All information given in the Contract Documents, relating to test pits, subsurface conditions and existing pipes and other structures, is from the best sources at present available to the Owner. All such information is furnished only for the information and convenience of Bidders.

It is agreed and understood that the Owner does not warrant or guarantee that the materials, pipes, or other structures encountered during construction will be the same as those indicated by the logs of test pits, test borings, or by the information given in the Contract Documents.

The Bidder is responsible for ascertaining the character, quantities, and conditions of the various materials and the work to be done.

It further is agreed and understood that the Bidder or the Contractor will not use any of the information made available to him or obtained in any examination made by him in any manner as a basis or ground of claim or demand of any nature, against the Owner or the Engineer, arising from or by reason of any variance which may exist between the information offered and the actual materials or structures encountered during the construction work, except as may otherwise be provided for in the Contract Documents.

16. BID ITEM BREAKDOWN

At the pre-construction conference, the Contractor shall provide a complete breakdown of the cost of his work for the lump sum Bid Item. The breakdown shall be prepared in such a manner that it may be used as a basis for estimating the value of work completed to the end of any month. The extent and basis of the breakdown shall be subject to the acceptance of the Engineer.

17. COMPLIANCE WITH NEW JERSEY PUBLIC LAW 1975, CHAPTER 127

Bidders are required to comply with the requirements of P.L. 1975, Chapter 127. Each Bid shall be accompanied by a Statement of Compliance with Chapter 127 of the Public Laws of 1975 which shall be signed by the Bidder. This document is contained in the Bid Form Section of these Specifications under the title "CONSTRUCTION CONTRACT MANDATORY LANGUAGE".

18. IRAN INVESTMENT ACTIVITIES CERTIFICATION

Pursuant to Public Law 2012, c.25 (N.J.S.A 52:32-55 *et seq.*), prior to the time of contract award, all bidders are required to complete a certification that attests that neither the bidder, nor any of its parents, subsidiaries and/or affiliates is listed on the list developed by the New Jersey Department of Treasury's List of Persons or Entities Engaging in Prohibited Investment Activities in Iran, pursuant to section 3 of P.L.2012, c. 25 (N.J.S.A. 52:32-57). ll bidders are advised to refer to the most current version of the list to ensure compliance with P.L. 2012, c. 25. The Department of Treasury List is available at http://www.state.nj.us/treasury/purchase/pdf/Chapter25List.pdf)..

19. DRUG AND ALCOHOL-FREE WORKPLACE POLICY

West Windsor Township is committed to maintaining a drug and alcohol-free workplace in order to protect the health and safety of Township employees, contractors on Township property, and the public at-large. This policy is in compliance with Federal Law and State guidelines establishing drug and alcohol-free workplace policies in government.

No contractor or its employees shall be intoxicated at any time while on Township property or while involved in Township business. Intoxication shall mean under the influence of legal or illegal narcotics or drugs, or alcohol.

No drugs or alcoholic beverages shall be consumed by contractors' employees during normal working hours and/or overtime or emergency situations. Drugs and alcoholic beverages are not permitted in Township vehicles, machinery, or equipment, or on Township property. The Township has the right, but not the obligation, to search any vehicles on Township property if there is reasonable suspicion that employees may be intoxicated.

20. COMPLIANCE WITH THE "DIRTY DIRT" LAW, P.L. 2019, c.397 *(if applicable)*

The law requires businesses engaged in soil and fill recycling to register with the New Jersey Department of Environmental Protection ("NJDEP") and apply for an A-901 license. The Dirty Dirt law specifically covers businesses that are engaged in or intend to engage in "the collection, transportation, processing, brokering, storage, purchase, sale or disposition, or any combination thereof, of soil and fill recyclable materials."

While the law's requirement is relaxed for businesses dealing exclusively with "Non-Restricted Soil and Fill Recyclable Materials," such as rock, soil, brick, or concrete generated from certain activities, and for businesses handling small volumes of these materials like landscapers, contractors, and electricians, a business (not a *de minimis* company) exclusively handling Non-Restricted Soil and Fill Recyclable Materials must register with the Department. However, it will not be required to obtain an A-901 license. Instead, the Department will provide a certification to allow such companies to operate.

With respect to the *de minimis* companies, they are not required to register, certify or apply for an A-901 license as long as they possess all other applicable licenses and authorizations necessary to operate. This *de minimis* exclusion applies to businesses that **only** handle Non-Restricted Soil and Fill Recyclable Material and: 1) generate less than 15 cubic yards of Non-Restricted Soil and Fill Material each business day, 2) use a truck that has a loading capacity of less than 15 cubic yards to transport such Material, 3) maintain a storage yard containing less than 100 cubic yards of such Material, and 4) maintain appropriate records to prove they are a *de minimis* company that can be made available to the Department upon request.

The law specifically excludes certain "clean" material from regulation.

21. COMPLIANCE WITH THE RECYCLED ASPHALT PAVEMENT BILL, P.L. 2023, c. 160 (*if applicable*)

On September 12, 2023, Recycled Asphalt Pavement Bill (P.L. 2023, c.160) was signed into law, which regulates the amounts of Reclaimed Asphalt Pavement (RAP) that may be used for certain road projects. The law requires a local contracting unit to authorize the contracted party on a local road project to use recycled materials, constituting a maximum of 35%, by weight, of the total pavement mixture for base and intermediate pavement courses, and a maximum of 20%, by weight, of the total mixture for surface pavement courses. Prior to the installation of asphalt mixtures containing reclaimed asphalt pavement, the contractor shall provide a mix design for approval to the Department of Transportation ("DOT"). The mix design will consist exclusively of materials, reclaimed asphalt pavement, mixtures, binders, and aggregates that meet or exceed the mix design specifications provided by the DOT. Nothing in this new law prohibits a local contracting unit from electing to allow a contractor for a local road project, which does not receive State funds, to use reclaimed asphalt pavements at higher maximum percentage rates established therein.

SUBCONTRACTOR DECLARATION and LIST OF SUBCONTRACTORS

IF THE PROJECT'S SCOPE OF WORK INVOLVES SPECIALTY TRADE CATEGORIES, PLEASE LIST SUBCONTRACTOR INFORMATION AND/OR SUB-SUBCONTRACTOR INFORMATION BELOW.

There shall be submitted proof that each subcontractor is qualified in accordance with the rules and regulations of the State of New Jersey when such rules and regulations exist.

Each Bidder shall set forth in the Bid, the names, addresses and license numbers (when required) of each subcontractor for the furnishing of plumbing and gas fitting, and all kindred work, and of the steam and hot water heating and ventilating apparatus, steam power plants and kindred work, and electrical work, structural steel and ornamental iron work, if any, for the construction, alteration or repair of any public buildings.

A General Contractor that intended to utilize a specific subcontractor to perform work in one or more of the specialty trade categories shall provide the required information with regard to that subcontractor in the appropriate space for each specialty trade category applicable to the contract.

All Bidders seeking to perform plumbing work on a publicly bid contract are required to comply with N.J.S.A. 45:14C-2 and N.J.A.C. 13:23-1.3. These provisions require that plumbing work on such contract may only be performed by an entity in which a licensed master plumber owns not less than 10% of the issued and outstanding shares of stock in the corporation, or not less than 10% of the capital of the partnership, or not less than 10% of the ownership of any other legal firm or legal entity. Accordingly, if a Bidder intends to perform plumbing work on a publicly bid contract with its own employees or by the Bidder himself, a master plumber must possess an ownership interest that complies with N.J.S.A. 45:14C-2 and N.J.A.C. 13:23-1.3 in the entity submitting the bid. Alternately, if a Bidder intends to perform such work through a subcontractor, a master plumber must possess an ownership interest that complies with N.J.S.A. 45:14C-2 and N.J.A.C. 13:23-1.3.

If the project's scope of work involves specialty trade categories, the General Contractor that intends to perform work in one or more of the specialty trade categories through the use of its own employees or the General Contractor himself rather than through the utilization of a subcontractor shall write the words "**IN-HOUSE**" next to each applicable category and then insert the name, and the license number where required, of each such employee of the General Contractor or the General Contractor himself in the appropriate spaces for each specialty trade category applicable to the contract.

If the contract does not involve any of the specialty trade categories, please write the word "**NONE**" in the appropriate space provided.

The Contractor or Subcontractor, where applicable, will not discriminate against any employee or applicant for employment because of age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation or sex. The Contractor will take affirmative action to ensure that such applicants are recruited and employed, and that employees are treated during employment, without regard to their age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation or sex. Such action shall include but not be limited to the following: employment; upgrading; demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. d. The Contractor or Subcontractor, where applicable, agrees to comply with any regulations promulgated by the Treasurer pursuant to N.J.S.A. 10:5-31 et seq., as amended and supplemented from time to time, and the Americans with Disabilities Act.

e. When hiring or scheduling workers in each construction trade, the Contractor or Subcontractor agrees to make good faith efforts to employ minority and women workers in each construction trade consistent with the applicable employment goal prescribed by N.J.A.C 17:27-7.3; provided, however, that the Division may, in its discretion, exempt a Contractor or Subcontractor from compliance with the good faith procedures prescribed by the following provisions, A, B, and C as long as the Division is satisfied that the Contractor or Subcontractor is employing workers provided by a union which provides evidence, in accordance with standards prescribed by the Division, that its percentage of active "card carrying" members who are minority and women workers is equal to or greater than the applicable employment goal prescribed in accordance with N.J.S.A. 17:27-7.3.

The Contractor or Subcontractor agrees that a good faith effort shall include compliance with the following procedures:

(A) If the Contractor or Subcontractor has a referral agreement or arrangement with a union for a construction trade, the Contractor or Subcontractor shall, within three (3) days of the contract award, seek assurances from the union that it will cooperate with the Contractor or Subcontractor as it fulfills its affirmative action obligations under this contract and in accordance with the rules promulgated by the Treasurer pursuant to N.J.S.A. 10:5-31 et. seq., as supplemented and amended from time to time and the American with Disabilities Act. If the Contractor or Subcontractor is unable to obtain said assurances from the construction trade union at least five (5) business days prior to the commencement of construction work, the Contractor or Subcontractor agrees to attempt to hire or schedule minority and women workers directly, consistent with the applicable employment goal. If the Contractor's or Subcontractor's prior experience with a construction trade union, regardless of whether the union has provided said assurances indicates a significant possibility that the trade union will not refer sufficient minority and women workers consistent with the applicable employment goal, the Contractor or Subcontractor agrees to be prepared to hire or schedule minority and women workers directly, consistent with the applicable employment goal, by complying with the hiring or scheduling procedures prescribed under (B) below; and the Contractor or Subcontractor further agrees to take said action if it determines or is so notified by the Division that the union is not referring minority and women workers consistent with the applicable employment goal.

(B) If the hiring or scheduling of a workforce consistent with the employment goal has not or cannot be achieved for each construction trade, by adhering to the procedures of (A) above, or if the Contractor or Subcontractor does not have a referral agreement or arrangement with a union for a construction trade, the Contractor or Subcontractor agrees to take the following actions consistent with the applicable county employment goal:

(1) To notify the Public Agency Compliance Officer, the Division, and minority and women referral organizations listed by the Division pursuant to N.J.A.C. 17:27-5.3, of its workforce needs, and request referral of minority and women workers;

(2) To notify any minority and women workers who have been listed with it as awaiting available vacancies;

(3) Prior to commencement of work, to request the local construction trade union refer minority and women workers to fill job openings, provided that the Contractor or Subcontractor has a referral agreement or arrangement with a union for the construction trade;

(4) To leave standing requests for additional referral of minority and women workers with the local construction trade union, provided the Contractor or Subcontractor has a referral agreement or arrangement with a union for the construction trade, the State Training and Employment Service and the other approved referral sources in the area until such time as the workforce is consistent with the employment goal;

(5) If it is necessary to lay off some of the workers in a given trade on the construction site, to assure, consistent with the applicable State and Federal statutes and court decisions, that sufficient minority and women employees remain on the site consistent with the employment goal; and to employ any minority and women workers so laid off by the Contractor or any other construction site on which its workforce composition is not consistent with an employment goal established pursuant to rules implementing N.J.S.A. 10:5-31 et seq.;

(6) To adhere to the following procedure when minority and women workers apply or are referred to the Contractors or Subcontractors:

(i) If said individuals have never previously received any document or certification signifying a level of qualification lower than that required in order to perform the work of the construction trade, the Contractor or Subcontractor shall determine the qualifications of such individuals and if the Contractor's or Subcontractor's workforce in each construction trade is not consistent with the applicable employment goal, it shall hire or schedule those individuals who satisfy appropriate qualification standards. However, a Contractor or Subcontractor shall determine that the individual at least possesses the requisite skills, and experience recognized by a union, apprentice program or referral agency, provided the referral agency is acceptable to the Division. If necessary, the Contractor or Subcontractor shall hire or schedule minority and women workers who qualify as trainees pursuant to these rules. All of the requirements, however, are limited by the provisions of (C) below.

(ii) If the Contractor's or Subcontractor's workforce is consistent with the applicable employment goal, the name of any interested women or minority individual shall be maintained on a waiting list for the first consideration, in the event the Contractor's or Subcontractor's workforce is no longer consistent with the applicable employment goal.

(iii) If, for any reason, said Contractor or Subcontractor determines that a minority individual or a woman is not qualified or if the individual qualifies as an advanced trainee or apprentice, said Contractor or Subcontractor shall inform the individual in writing of the reasons for the determination, maintain a copy of the determination in its files, and send a copy to the Public Agency Compliance Officer and to the Division.

(7) To keep a complete and accurate record of all requests made for the referral of workers in any trade covered by the contract, on forms made available by the Division and submitted promptly to the Division upon request.

(C) The Contractor or Subcontractor agrees that nothing contained in (B) above shall preclude the Contractor or Subcontractor from complying with the union hiring hall or apprenticeship policies in any applicable collective bargaining agreement or union hiring hall arrangement, and where required by custom or agreement, it shall send journeymen and trainees to the union for referral, or to the apprenticeship program for admission, pursuant to such agreement or arrangement. However, where the practices of a union or apprenticeship program will result in the exclusion of minorities and women or the failure to refer minorities and women consistent with the county employment goal, the Contractor or Subcontractor shall consider for employment persons referred pursuant to (B) above without regard to such agreement or arrangement; provided further, however, that the Contractor or Subcontractor shall not be required to employ women and minority advanced trainees and trainees in numbers which result in the employment of advanced trainees as a percentage of the total workforce for the construction trade, which percentage significantly exceeds the apprentice to journey worker ratio specified in the applicable collective bargaining agreement, or in the absence of a collective bargaining agreement, exceeds the ratio established by practice in the area for said construction trade. Also the Contractor or Subcontractor agrees that, in implementing the procedures of (B) above, it shall, where applicable, employ minority and women workers residing within the geographical jurisdiction of the union.

After notification of award, but prior to signing a construction contract, the Contractor shall submit to the Public Agency Compliance Officer and the Division an initial project workforce report (Form AA 201) provided to the public agency by the Division for distribution to and completion by the Contractor, in accordance with N.J.A.C. 17:27-7. The Contractor also agrees to submit a copy of the Monthly Project Workforce Report once a month thereafter for the duration of this contract to the Division and to the Public Agency Compliance Officer.

The Contractor agrees to cooperate with the public agency in the payment of budgeted funds, as necessary, for on-the-job and/or off-the-job programs for outreach and training of minorities and women.

(D) The Contractor and its Subcontractors shall furnish such reports or other documents to the Division of Contract Compliance & EEO as may be requested by the Division from time to time in order to carry out the purposes of these regulations, and public agencies shall

furnish such information as may be requested by the Division of Contract Compliance & EEO for conducting a compliance investigation pursuant to Subchapter 10 of the Administrative Code (N.J.A.C. 17:27).

Section 7. Acknowledgement of compliance with Section 11 of Chapter 150 of the Public Laws of 1963 (C.34:11-56.35 et seq.)

Contractor hereby acknowledges its duty to comply with C.34:11-56.35 as amended by P.L. 2019 c.158. This statute allows the Commissioner of Labor and Workforce Development to immediately issue a stop-work order if it makes an initial determination that an employer has violated the Prevailing Wage Act by paying wages at rates less than the rates required under the act. Such stop-work order will remain in effect until the employer has agreed to pay the required wages, any wages due and any penalty, and the Commissioner of Labor and Workforce Development issues a subsequent order releasing the stop-work order. If the stop-work order is issued against a subcontractor, the General Contractor has the right to terminate such subcontractor. A $5,000 per day civil penalty may be imposed against any employer violating the stop-work order. Furthermore, the Department of Labor and Workforce Development is entitled to enter the place of business during usual business hours to determine compliance with wage and hour laws by examining payroll and other records, interviewing employees, calling hearings, administering oaths, taking testimony under oath and taking depositions to determine compliance with wage and hour laws. Any employer or agent of the employer who willfully fails to furnish time and wage record or who refuses to admit the Department into the place or who hinders or delays the Department in the performance of duties may be fined not less than $1,000 and will be guilty of a disorderly person offense, with each day of continuing noncompliance or hindrance constituting a separate offense.

Contractor hereby agrees that it shall not submit any change order for increased compensation related to delay, remobilization, liquidated damages, or other similar grounds resulting from a stop-work order issued under this law, regardless of whether the underlying violation was intentional or unintentional, or whether such violation was committed by the Bidder or any of its Subcontractors.

Section 8. Furnishing of Maintenance Bond.

The Contractor shall be obligated to provide a maintenance bond to the Township following the completion of services under this contract, pursuant to the bid specifications.

Section 9. Liquidated Damages.

In the event of the failure of the Contractor to fulfill its obligations hereunder within the time stated herein, the Contractor shall be liable to pay liquidated damages to the Township **(per General Conditions 4.23 based on contract value)** for each day the contract remains incomplete. The sum shall be treated as liquidated damages and not a penalty for the loss of the Township of the use of the premises in a completed state of construction, alteration or repair and for added administrative and inspection costs to the Township on account of the delay; provided, however, that said liquidated damages shall be in addition to other consequential losses or damages that the Township may incur by reason of such delay, such as, but not limited to, added cost to the project and the cost of furnishing temporary accommodations for Township operations. Any such sums for which the Contractor is liable may be deducted by the Township from any monies due or to become due to the Contractor.

The said amount is fixed and agreed upon by and between the Contractor and the Township because of the impracticality and extreme difficulty affixing and ascertaining the actual damages the Township will suffer.

Section 10. General Conditions.

a. This Agreement incorporates by reference all provisions of the bid documents, including specifications and general conditions and instructions to bidders. This Agreement and the bid documents supersede all other representations and understandings between the parties.

b. This Agreement is binding upon the Township, its successors or assigns and upon the Contractor and its successors. This Agreement may not be assigned by the Contractor.

c. The Township shall recognize only the Contractor for the proper execution of this Agreement and work performed under this Agreement in accordance with the Contract Documents. Approval of a Subcontractor by the Township in no way relieves the Contractor from full responsibility for fulfilling all conditions of the Agreement.

d. This Agreement shall be governed by and interpreted under the laws of the State of New Jersey.

e. Any notices to be given under this Agreement shall be via first-class mail, addressed to the respective party at the address first appearing in this Agreement.

IN WITNESS WHEREOF, the Township has caused this instrument to be signed by its Mayor, attested to by its Clerk and its corporate seal is hereunto affixed, pursuant to a Resolution of the Township Council of the Township of West Windsor passed for that purpose, and the Contractor has set its hand and seal the day and year first written above.

PREVAILING WAGE AFFIDAVIT

The successful bidder agrees to comply with the New Jersey Prevailing Wage Act, N.J.S.A. 34:11-56.25 et seq. (P.L.1963, Chapter 150 as amended by P.L. 2019 c.158) for contracts entered into with the Township of West Windsor, except those contracts which are not within the scope of the act.

The successful bidder and any of its subcontractors shall be obligated to pay the prevailing wage, to submit certified payrolls as documentation of compliance and to permit on-site monitoring, including interviews with employees and review subcontracts by Township representatives. The bidder's signature on this proposal is his guarantee that neither he nor any subcontractor that he may employ to perform the work covered by this bid are listed or are on record in the Office of the Commission of the New Jersey Department of Labor as one who has failed to pay prevailing wages in accordance with the provisions of this act.

Every Contractor and subcontractor shall keep an accurate payroll record, showing the name, craft or trade, job title or classification, actual hourly rate or wages paid, hours worked and total wages paid to each workman employed by him/her in connection with a public work. Payroll records shall be preserved for a period of two (2) years from the date of payment.

The successful bidder agrees to indemnify and hold harmless the Township of West Windsor, the Township Council of the Township of West Windsor and all of its officers, agents and employees of and from any and all liability damages and attorney fees associated with a New Jersey Department of Labor investigation and/or determination that the New Jersey Prevailing Wage Act was not complied with.

The statute (N.J.S.A. 34:11-56.35 as amended by P.L. 2019 c.158) allows the Commissioner of Labor and Workforce Development to **immediately issue a stop-work order** if it makes an initial determination that an employer has violated the Prevailing Wage Act by paying wages at rates less than the rates required under the act. Such stop-work order will remain in effect until the employer has agreed to pay the required wages, any wages due and any penalty, and the Commissioner of Labor and Workforce Development issues a subsequent order releasing the stop-work order. If the stop-work order is issued against a subcontractor, the general Contractor has the right to terminate such subcontractor. A $5,000 per day civil penalty may be imposed against any employer violating the stop-work order.

Furthermore, the Department of Labor and Workforce Development is entitled to enter the place of business during usual business hours to determine compliance with wage and hour laws by examining payroll and other records, interviewing employees, calling hearings, administering oaths, taking testimony under oath and taking depositions to determine compliance with wage and hour laws. Any employer or agent of the employer who willfully fails to furnish time and wage record or who refuses to admit the Department into the place or who hinders or delays the Department in the performance of duties may be fined not less than $1,000 and will be guilty of a disorderly person offense, with each day of continuing noncompliance or hindrance constituting a separate offense.

P.L. 2021, c. 301, effective as of May 7, 2022, requires the successful bidder submitting the lowest bid for a contract that is subject to the Prevailing Wage Act, if that bid is 10 percent or more lower than the next lowest bid, to certify to the public body that the prevailing wage rates required by the Act shall be paid.

Contractor agrees that it shall not submit any change order for increased compensation related to delay, remobilization, liquidated damages, or other similar grounds resulting from a stop-work order

issued under this law, regardless of whether the underlying violation was intentional or unintentional, or whether such violation was committed by the Bidder or any of its subcontractors.

The Contractor and the Township of West Windsor (hereinafter the "Township") do hereby agree that the provisions of Title II of the Americans with Disabilities Act of 1990 (the "Act"), 42 U.S.C. 12101 et seq., which prohibits discrimination on the basis of disability by public entities in all services, programs, and activities provided or made available by public entities and the rules and regulations promulgated pursuant thereunto, are made a part of this contract. In providing any aid, benefit, or service on behalf of the Township pursuant to this contract, the Contractor agrees that the performance shall be in strict compliance with the Act. In the event that the Contractor, its agents, servants, employees or subcontractors violate or are alleged to have violated the Act during the performance of this contract, the contractor shall defend the Township in any action or administrative proceeding commenced pursuant to this Act. The Contractor shall indemnify, protect, and save harmless the Township, its agents, servants, and employees from and against any and all suits, claims, losses, demands or damages of whatever kind or nature arising out of or claimed to arise out of the alleged violation. The Contractor shall, at its own expense, appear, defend and pay any and all charges for legal services and any and all costs and other expenses arising from such action or administrative proceeding or incurred in connection therewith. In any and all complaints brought pursuant to the Township's grievance procedure, the Contractor agrees to abide by any decision of the Township which is rendered pursuant to said grievance procedure. If any action or administrative proceeding results in an award of damages against the Township or if the Township incurs any expense to cure a violation of the ADA which has been brought pursuant to its grievance procedure, the Contractor shall satisfy and discharge the same at its own expense.

The Township shall, as soon as practicable after a claim has been made against it, give written notice thereof to the Contractor along with full and complete particulars of the claim. If any action or administrative proceeding is brought against the Township or any of its agents, servants and employees, the Township shall expeditiously forward or have forwarded to the Contractor every demand, complaint, notice, summons, pleading, or other process received by the Township or its representatives.

It is expressly agreed and understood that any approval by the Township of the services provided by the Contractor pursuant to this contract will not relieve the Contractor of the obligation to comply with the Act and to defend, indemnify, protect, and save harmless the Township pursuant to this paragraph.

It is further agreed and understood that the Township assumes no obligation to indemnify or save harmless the Contractor, its agents, servants, employees and subcontractors for any claim which may arise out of their performance of this Agreement. Furthermore, the Contractor expressly understands and agrees that the provisions of this indemnification clause shall in no way limit the Contractor's obligations assumed in this agreement, nor shall they be construed to relieve the Contractor from any liability, nor preclude the Township from taking any other actions available to it under any other provisions of this agreement or otherwise at law.

Identification Number: 22-2626262

MECO, INC.
37 PRODELIN WAY
MILLSTONE, NJ 08535

Dear Sir/Madam,
In accordance with Title 27:7-35 et seq., and Regulation of the New Jersey Department of Transportation, you are hereby notified that your firm has been CLASSIFIED by the New Jersey Department of Transportation. Please see ATTACHMENT A for your firm's assigned financial capability, work classification(s), and project rating(s).

Your firm's financial capability is based on (net working capital or (Net Worth x 15) + (net book value of construction equipment, less the value of any outstanding loans x 15) + (unsecured lines of credit in accordance with the Questionaire x 7) as determined by the Department from the information your firm submitted for the Close of Business on 12/31/2024 Please see ATTACHMENT B for explanation.

Your firm's financial capability is defined as the dollar threshold on the maximum of a project rating, which is assigned by the Department pursuant to N.J.A.C. 16:44-3.6 upon examination of the contractor's Questionaire and financial statement submitted in accordance with this chapter. Project Rating is defined as the maximum dollar amount that a Contractor shall be allowed to bid in a particular work type on and individual project.

This CLASSIFICATION will be effective on 6/17/2025 and will expire on 6/30/2026

This denotes your maximum financial capability and project rating(s) are limited to no greater than $10,000,000 since your firm has chosen to submit a CPA review of your financial statements.

Bid will only be accepted from a contractor classified with the Department pursuant to N.J.A.C. 16:44-3. Bids will only be accepted from a contractor who has been classified in at least one of the work classifications required in the project advertisement. Bids will be accepted from a contractor in an amount that does not exceed its project rating. When there is a question as to whether a bid is within the contractor's classification or, where it reasonably appears that a contractor may not have the classification that will allow it to bid on a project for which bids are being sought, the bid will be opened provisionally. If the bid is for a different work classification or in a dollar amount greater than the contractor's maximum project rating, the bid will be rejected.

NOTICE OF CLASSIFICATION
MECO, INC.

Please be advised that the supplementary provisions (Project specific Specifications) for all present and future Bridge Painting contracts required all contractors and sub-contractors to have valid Certificates SSPC-QP1 and SSPC-QP2 issued by The Society for Protective Coatings (http://www.sspc.org/) at the time of bid and duration of the contract.

In order to be continuously eligible to bid on projects to be undertaken by this Department, your firm's next Contractor's Financial and Equipment Statement should be submitted one month before the expiration date, but must be received at least 15 days prior to the date set for receipt of bids for which the classification will be used.

Requirements of New Jersey Administrative Code 16:44-12.1 and 12.2 must be complied with by all corporations classified with the New Jersey Department of Transportation.

Sincerely,

Mario Serenelli

NOTICE OF CLASSIFICATION
STRAIGHT EDGE STRIPING, LLC

June 25 2024

Identification Number: 20-3662885

STRAIGHT EDGE STRIPING, LLC
201 WILTON AVENUE
MIDDLESEX, NJ 08846

Dear Sir/Madam,
In accordance with Title 27:7-35 et seq., and Regulation of the New Jersey Department of Transportation, you are hereby notified that your firm has been CLASSIFIED by the New Jersey Department of Transportation. Please see ATTACHMENT A for your firm's assigned financial capability, work classification(s), and project rating(s).

Your firm's financial capability is based on (net working capital or (Net Worth x 15) + (net book value of construction equipment, less the value of any outstanding loans x 15) + (unsecured lines of credit in accordance with the Questionaire x 7) as determined by the Department from the information your firm submitted for the Close of Business on 12/31/2023 Please see ATTACHMENT B for explanation.

Your firm's financial capability is defined as the dollar threshold on the maximum of a project rating, which is assigned by the Department pursuant to N.J.A.C. 16:44-3.6 upon examination of the contractor's Questionaire and financial statement submitted in accordance with this chapter. Project Rating is defined as the maximum dollar amount that a Contractor shall be allowed to bid in a particular work type on and individual project.

This CLASSIFICATION will be effective on 7/3/2024 and will expire on 6/30/2025

This denotes your maximum financial capability and project rating(s) are limited to no greater than $10,000,000 since your firm has chosen to submit a CPA review of your financial statements

Bid will only be accepted from a contractor classified with the Department pursuant to N.J.A.C. 16:44-3. Bids will only be accepted from a contractor who has been classified in at least one of the work classifications required in the project advertisement. Bids will be accepted from a contractor in an amount that does not exceed its project rating. When there is a question as to whether a bid is within the contractor's classification or, where it reasonably appears that a contractor may not have the classification that will allow it to bid on a project for which bids are being sought, the bid will be opened provisionally. If the bid is for a different work classification or in a dollar amount greater than the contractor's maximum project rating, the bid will be rejected.

NOTICE OF CLASSIFICATION
STRAIGHT EDGE STRIPING, LLC

In order to be continuously eligible to bid on projects to be undertaken by this Department, your firm's next Contractor's Financial and Equipment Statement should be submitted one month before the expiration date, but must be received at least 15 days prior to the date set for receipt of bids for which the classification will be used.

Requirements of New Jersey Administrative Code 16:44-12.1 and 12.2 must be complied with by all corporations classified with the New Jersey Department of Transportation.

Sincerely,

Mario Serenelli

Manager
Bureau of Construction Services
