MESSAGE TO RESIDENTS LIVING CLOSE TO GROVER'S FARM

## Hunting Stand on Grover's Farm

Residents living close to the farm have raised concern about a hunting stand they observed on the property. Although deer hunting has been going on the property for many years, this is the first time they have seen a stand.

Under State Law a farmer is allowed to hunt on the farm. The stand was erected on recommendation of the State. Only Bow and Arrow are used for shooting, NO guns. The farmer assured us that no guns will be used for shooting. The State advised it's safer since you shoot the arrow down from the stand rather than horizontal when you are shooting from the ground.
